

BUSINESS CASE

MOH FASHION STORE BUSINESS MANAGEMENT & CUSTOMER SERVICE SYSTEM

1. Utangulizi

Mo Fashion Store ni biashara inayojihusisha na uuzaji wa nguo za wanawake, ikiwemo crop tops, boyfriend jeans, aina mbalimbali za jeans, official pants, shirts, T-shirts, two-piece outfits, official wear pamoja na aina nyingine za mavazi ya kike.

Kadiri biashara inavyokua, idadi ya bidhaa, mauzo, wateja na mawasiliano kupitia WhatsApp inaongezeka. Hivyo, kuna umuhimu wa kuwa na mfumo mmoja wa kidigitali utakaosaidia kusimamia taarifa za biashara, kuhifadhi kumbukumbu za mauzo, kufuatilia wateja na kutoa huduma kwa wateja kwa ufanisi zaidi.

Mfumo unaopendekezwa utaitwa:

Mo Fashion Business Management System – MFBMS

Mfumo utaunganisha **Sales Management, Customer Management, Inventory Management na WhatsApp Customer Service** katika sehemu moja.

2. Tatizo la Biashara

Kwa sasa, biashara inaweza kukumbana na changamoto kama:

- Kutokuwa na kumbukumbu nzuri na za haraka za mauzo ya kila siku.
- Ugumu wa kujua bidhaa gani zinauzwa zaidi.
- Ugumu wa kujua stock iliyopo bila kufanya hesabu manually.
- Kutokuwa na database nzuri ya wateja.
- Kutokuwa na historia ya manunuzi ya kila mteja.
- Kukosa mfumo wa kufuatilia wateja waliowahi kununua.
- Kutuma matangazo kwa wateja mmoja mmoja kupitia WhatsApp.
- Kuchelewa kujibu maswali ya wateja.
- Kupoteza baadhi ya wateja wanaouliza bidhaa kupitia WhatsApp lakini hawapati majibu kwa wakati.
- Kukosa taarifa zinazoweza kusaidia kufanya maamuzi ya biashara.

Mfumo huu unapendekezwa kutatua changamoto hizo.

3. Lengo Kuu la Mfumo

Kutengeneza mfumo wa kidigitali utakaoisaidia **Mo Fashion Store** kusimamia mauzo, bidhaa, wateja na huduma kwa wateja kupitia WhatsApp, huku ukitoa taarifa muhimu zinazosaidia kufanya maamuzi ya biashara.

Malengo Mahususi

Mfumo uweze:

1. Kutunza kumbukumbu za mauzo.
2. Kutunza taarifa za wateja.
3. Kutunza taarifa za bidhaa na stock.
4. Kutunza historia ya manunuzi ya kila mteja.
5. Kutambua bidhaa zinazouzwa zaidi.
6. Kutambua wateja wanaonunua mara kwa mara.
7. Kutuma matangazo na offers kwa wateja.
8. Kutuma ujumbe wa kuwafuatilia wateja.
9. Kujibu baadhi ya maswali ya wateja automatically kupitia WhatsApp.
10. Kutoa reports zinazosaidia mmiliki wa biashara kufanya maamuzi.

4. Watumiaji wa Mfumo

Mfumo utakuwa na aina kuu za watumiaji:

A. Business Owner / Administrator

Mmiliki ataweza kuona taarifa zote za biashara kama:

- Mauzo.
- Stock.
- Wateja.
- Orders.
- Expenses.
- Profit estimates.
- Reports.
- WhatsApp conversations.
- Performance ya bidhaa.

B. Sales Person

Mfanyakazi ataweza:

- Kuingiza mauzo.

- Kusajili mteja.
- Kuangalia bidhaa zilizopo.
- Kurekodi order.
- Ku-update status ya order.

C. Customer

Mteja hatahitaji kuingia kwenye mfumo moja kwa moja.

Atatumia **WhatsApp** kuuliza kuhusu:

- Bei.
- Size.
- Rangi.
- Stock.
- Offers.
- Delivery.
- Location.
- Order yake.

5. Mfumo wa Usimamizi wa Bidhaa

Kila bidhaa itakuwa na taarifa kama:

Product Name: Boyfriend Jeans

Category: Jeans

Product Code: MF-JN-001

Size: S / M / L / XL

Colour: Blue

Buying Price: TZS 25,000

Selling Price: TZS 40,000

Quantity Available: 15

Supplier: Supplier A

Date Added: 20/09/2026

Categories zinaweza kujumuisha:

- Crop Tops
- Boyfriend Jeans
- Skinny Jeans

- Straight Jeans
- Official Pants
- Official Shirts
- T-Shirts
- Dresses
- Two Pieces
- Official Wear
- Jackets
- Skirts
- Accessories

Mfumo utaonyesha pia:

Low Stock Alert

Mfano:

Boyfriend Jeans – Size M

Stock Remaining: 2

Hii itamsaidia mmiliki kujua bidhaa gani zinahitaji kuongezwa.

6. Mfumo wa Mauzo

Kila mauzo yatarekodiwa kwenye mfumo.

Mfano:

Sale ID: MF-000125

Customer: Neema Joseph

Product: Boyfriend Jeans

Size: M

Quantity: 2

Unit Price: TZS 40,000

Total: TZS 80,000

Payment Method: M-Pesa

Sales Person: Asha

Date: 20/09/2026

Mfumo utapunguza stock automatically baada ya mauzo kufanyika.

7. Customer Database

Mfumo utakuwa na database ya wateja.

Taarifa za mteja zinaweza kujumuisha:

- Customer ID
- Jina
- Namba ya simu
- WhatsApp number
- Location
- Preferred clothing category
- Preferred size
- Preferred colour
- First purchase date
- Last purchase date
- Total purchases
- Amount spent
- Purchase history
- Notes

Mfano:

Customer: Neema Joseph

WhatsApp: 07XXXXXXXX

Location: Morogoro

Preferred Size: M

Favourite Products: Jeans & Crop Tops

Total Purchases: 8

Total Spending: TZS 430,000

Hii itaifanya Mo Fashion Store kumfahamu kila mteja vizuri zaidi.

8. Customer Segmentation

Mfumo utaweza kugawanya wateja katika makundi.

Mfano:

New Customers

Wateja walionunua kwa mara ya kwanza.

Regular Customers

Wateja wanaonunua mara kwa mara.

VIP Customers

Wateja wenye manunuzi makubwa.

Inactive Customers

Wateja ambao hawajanunua kwa muda mrefu.

Jeans Customers

Wateja wanaopendelea jeans.

Official Wear Customers

Wateja wanaopendelea official wear.

Hii itasaidia kutuma promotions zinazolenga kundi sahihi.

9. WhatsApp Customer Service

Mfumo utaunganishwa na **WhatsApp Business Platform/API**.

Mteja akituma ujumbe:

Hello, mna boyfriend jeans size M?

Mfumo unaweza kuangalia stock na kujibu:

Karibu Mo Fashion Store 

Ndiyo, Boyfriend Jeans Size M zipo.

Bei ni TZS 40,000.

Ungependa kuona rangi na designs zilizopo?

Mteja akijibu:

Ndiyo

Mfumo unaweza kumuonyesha bidhaa zilizopo au kumuelekeza kwa mhudumu pale inapohitajika.

10. AI Customer Service Assistant

Mfumo unaweza kuwa na **AI Assistant** inayoweza kujibu maswali ya kawaida ya wateja masaa 24.

AI itakuwa na taarifa kuhusu:

- Products.
- Prices.
- Sizes.
- Colours.

- Stock.
- Delivery.
- Payment methods.
- Offers.
- Store location.

Mfano:

Customer

Mna black official pants size L?

AI

Ndiyo 😊 Black Official Pants Size L zipo. Bei ni TZS 35,000. Ungependa nikusaidie kuweka order?

Customer:

Ndiyo.

AI:

Sawa. Naomba unitumie location yako kwa ajili ya kupanga delivery.

Maswali ambayo AI haiwezi kuyajibu yatahamishwa kwenda kwa staff.

11. WhatsApp Marketing

Mfumo utasaidia kutuma messages kwa wateja waliokubali kupokea taarifa za biashara.

Mfano:

🔔 MO FASHION WEEKEND OFFER

Boyfriend Jeans zimepunguzwa kutoka TZS 40,000 hadi TZS 35,000.

Offer inaisha Jumapili.

Reply **JEANS** kuona designs zilizopo.

Mfumo unaweza kutuma ujumbe huo kwa wateja waliowahi kununua jeans badala ya kutuma kwa kila mtu.

12. Automated Customer Follow-Up

Mfumo utaweza kuweka automated messages.

After Purchase Message

Baada ya kununua:

Asante kwa kununua Moh Fashion Store ♡

Tunatumaini umefurahia bidhaa yako.

Tutafurahi kukuhudumia tena.

Customer Follow-Up

Baada ya muda fulani:

Hi Neema 😊

Tumepokea collection mpya ya jeans ambazo tunadhani unaweza kuzipenda.

Reply **YES** kuona designs mpya.

Inactive Customer

Mteja ambaye hajafanya manunuzi kwa miezi kadhaa:

Tumekumiss Mo Fashion Store ♡

Kuna collection mpya imeingia.

Reply **NEW** kuona bidhaa mpya.

13. Offers & Campaign Management

Administrator ataweza kutengeneza campaign.

Mfano:

Campaign: Weekend Jeans Offer

Target Customers:

Customers interested in Jeans

Offer:

10% Discount

Start Date:

25 September 2026

End Date:

27 September 2026

Channel:

WhatsApp

Mfumo utaonyesha:

- Messages sent.
- Delivered.

- Read.
- Responses.
- Orders generated.
- Sales generated.

14. Order Management

Mfumo utakuwa na status za order kama:

New Order → Confirmed → Payment Received → Preparing → Out for Delivery → Delivered

Mteja anaweza kupata WhatsApp notification kila hatua.

Mfano:

Hello Neema, order yako #MF1205 imepokelewa.

Baadaye:

Order yako #MF1205 iko njiani 🚚

Na mwisho:

Order yako #MF1205 imefika. Asante kwa kuchagua Mo Fashion Store ❤️

15. Reports & Dashboard

Dashboard ya biashara itaonyesha kwa mfano:

TODAY

Sales: **TZS 850,000**

Orders: **21**

Customers: **17**

New Customers: **6**

THIS MONTH

Sales: **TZS 12,600,000**

Expenses: **TZS 4,100,000**

Estimated Gross Profit: **TZS 4,800,000**

Top Selling Product:

Boyfriend Jeans

Best Customer:

Customer X

16. Reports Muhimu

Mfumo utaweza kutengeneza:

- Daily Sales Report
- Weekly Sales Report
- Monthly Sales Report
- Product Sales Report
- Customer Report
- Inventory Report
- Low Stock Report
- Expense Report
- Profit Report
- WhatsApp Campaign Report
- Customer Purchase History Report

17. Mfano wa Mfumo Kufanya Kazi

Mteja aitwaye **Neema** anawasiliana kupitia WhatsApp:

Mna boyfriend jeans?

AI inaangalia database.

Inaona:

Boyfriend Jeans

Size M

Stock = 7

Price = TZS 40,000.

Inamjibu:

Ndiyo Neema 😊 Boyfriend Jeans Size M zipo. Bei ni TZS 40,000. Ungependa kuona designs zilizopo?

Neema anaweka order.

Mfumo:

1. Unarekodi order.
2. Unarekodi taarifa za Neema.
3. Unapunguza stock.
4. Unarekodi mauzo.
5. Unatunza purchase history.

6. Unatuma confirmation kupitia WhatsApp.

Baada ya muda mfumo unaweza kumjulisha:

Neema, collection mpya ya boyfriend jeans imeingia Mo Fashion Store 

Hivyo taarifa ya mauzo inageuka kuwa taarifa inayoweza kusaidia kufanya **repeat sales**.

18. Modules Kuu za Mfumo

Mfumo unapendekezwa kuwa na modules hizi:

1. **Dashboard**
2. **Product Management**
3. **Inventory Management**
4. **Sales Management**
5. **Customer Management – CRM**
6. **Order Management**
7. **Expense Management**
8. **WhatsApp Integration**
9. **AI Customer Service Assistant**
10. **Marketing Campaign Management**
11. **Customer Follow-Up**
12. **Reports & Analytics**
13. **Users & Staff Management**
14. **System Settings**

19. Minimum Viable Product – MVP

Ili mfumo usiwe mkubwa sana mwanzoni, Version 1 inaweza kuanza na:

Phase 1

- Products
- Inventory
- Sales
- Customer Database
- Orders
- Basic Dashboard
- Basic Reports

Phase 2

- WhatsApp integration
- Customer notifications
- Marketing messages
- Order notifications

Phase 3

- AI WhatsApp Customer Service Agent
- Automated responses
- Customer segmentation
- Automated campaigns
- Advanced analytics

20. Data Protection & Customer Consent

Mfumo unatakiwa kulinda taarifa za wateja, hasa:

- Majina.
- Namba za simu.
- Purchase history.
- Location.
- WhatsApp conversations.

Ujumbe wa promotional unapaswa kutumwa kwa wateja waliokubali kupokea taarifa za biashara, na kuwe na njia rahisi ya mteja kuomba kusitishiwa promotional messages.

Pia mfumo uwe na:

- Username/password authentication.
- Different user permissions.
- Backup ya data.
- Audit records za mabadiliko muhimu.
- Data encryption inapowezekana.

21. Expected Business Benefits

Mfumo unatarajiwa kuisaidia Mo Fashion Store:

- Kuwa na kumbukumbu sahihi za biashara.
- Kupunguza upotevu wa taarifa.
- Kujua stock kwa wakati.
- Kujua bidhaa zinazofanya vizuri.

- Kutoa huduma kwa wateja masaa 24 kupitia automation.
- Kuongeza repeat customers.
- Kufanya targeted marketing.
- Kuongeza kasi ya kujibu WhatsApp.
- Kupunguza kazi zinazofanywa manually.
- Kuelewa tabia za wateja.
- Kufanya maamuzi kwa kutumia data.
- Kuongeza mauzo na customer retention.

22. Vision ya Mfumo

Lengo la muda mrefu ni kufanya **Mo Fashion Store** kuwa **data-driven fashion business** ambapo safari ya mteja inaweza kusimamiwa kutoka:

Customer Inquiry → Product Recommendation → Order → Payment → Delivery → Sales Record → Customer Follow-Up → Repeat Purchase

Mfumo hivyo hautakuwa tu sehemu ya kurekodi mauzo, bali utakuwa **digital engine ya biashara ya Mo Fashion Store** inayounganisha mauzo, stock, wateja, marketing na huduma kwa wateja katika mfumo mmoja.
